OFFICIAL PROPOSAL BLUEPRINT & PITCH STRATEGY

UrjaMitra AI (ఉర్జామిత్ర)

AIKAM EnergyTech Challenge • TGSPDCL & TGNPDCL Department of Energy Selection

CHALLENGE	KEY DEADLINES	INCENTIVES	IP OWNERSHIP
AIKAM EnergyTech 2026	**Oct 16 (Immersion) / Oct 25 (Demo)**	**₹36-39L Pool + TG-DISCOM Pilot**	**100% Retained by Team**

1. EXECUTIVE SUMMARY & STRATEGIC POSITIONING

The AIKAM EnergyTech Innovation Challenge brings together the Government of Telangana, the Department of Energy, and state utilities TGSPDCL and TGNPDCL. The competition evaluates technology solutions capable of solving immediate operational bottlenecks across 1.75 Crore power connections in Telangana.

> **The Three Winning Pillars of UrjaMitra AI**
>
> **1. Zero-Hallucination Architecture:** Absolute guarantee of monetary accuracy. LLMs handle dialogue; a deterministic Python engine calculates official TGERC slab rates.
> **2. Telugu-First Vernacular Inclusion:** True voice and chat accessibility in Telangana Telugu dialects for rural, urban, and agricultural consumers.
> **3. Closed-Loop Enterprise Resolution:** Solves disputes on the spot by generating pre-validated SAP IS-U tickets with meter photo evidence, eliminating paper files.

2. JURY ALIGNMENT: HOW TO WIN EACH STAKEHOLDER PROFILE

Stakeholder Profile	What They Are Evaluating	UrjaMitra AI Winning Response
Department of Energy IAS Leadership	Citizen satisfaction, rural outreach, seamless Gruha Jyothi 200-unit subsidy governance.	Demonstrate Telugu voice notes and real-time alerts warning citizens before they cross subsidy thresholds.
TGSPDCL / TGNPDCL Directors & Engineers	Zero math errors, reduction in 1912 call center costs, SAP IS-U compatibility.	Prove the deterministic Python calculation engine and show pre-audited dispute tickets with photo proofs.
IIIT-H Professors & AI Researchers	Scalable agentic systems, multimodal OCR accuracy, vernacular speech models.	Highlight LangGraph DAG state machines, prompt caching FinOps, and low-latency Telugu TTS/ASR.

3. THE 10-SLIDE PITCH DECK BLUEPRINT

Slide 1: Title & Executive Hook — SLIDE 01

Headline: UrjaMitra AI (ఉర్జామిత్ర) — Transforming 1.75 Crore Telangana Bills from Confusion to Instant Clarity.
Presenter: Dandothkar Manik Prabhu | Senior Marketing & Delivery Manager, Digio Click.

Slide 2: The Core Crisis in Telangana Power Distribution — SLIDE 02

68% of 1912 inbound calls are billing complaints. The "Gruha Jyothi 200-Unit Cliff": crossing 201 units causes subsidy loss and massive citizen bill shock.

Slide 3: The Solution — UrjaMitra AI — SLIDE 03

Omnichannel copilot on WhatsApp, Web, and 1912 Voice. Ingests paper bill photos, explains line-items in Telugu/Hindi/English, and prevents subsidy loss.

Slide 4: Multi-Agent Architecture (LangGraph Powered) — SLIDE 04

4 specialized agents: Slab Deconstructor, Multimodal Vision OCR Audit, Proactive Spike/Solar Advisor, and Autonomous SAP Dispute Ticket Agent.

Slide 5: The Zero-Hallucination Engine — SLIDE 05

Architectural diagram separating LLM intent recognition from the 100% deterministic Python TGERC Tariff Engine. Zero financial hallucinations.

Slide 6: Live Product Walkthrough & Citizen Journey — SLIDE 06

Visual demo: Citizen snaps photo of yellow bill via WhatsApp → receives Telugu voice breakdown → clicks 1-tap dispute if meter reading was misread.

Slide 7: Utility Officer Command Center — SLIDE 07

Executive dashboard for Section Officers (AAE/ADE): Circle dispute heatmaps, 78% First-Contact Resolution metrics, and 1-click dispute approvals.

Slide 8: Measurable Business Case & State ROI — SLIDE 08

₹4.75 Cr annual savings on 1912 call centers; ₹1.28 Cr saved in field re-readings; ₹18+ Cr faster working capital cash collection.

Slide 9: Team Credibility & Digio Click Unfair Advantage — SLIDE 09

Hyderabad-based customer engagement & enterprise delivery powerhouse. 5.4+ Years specialized in B2B systems and agentic workflows.

Slide 10: Pilot Roadmap (Immersion to 90-Day Deployment) — SLIDE 10

Oct 16 Immersion Day → Oct 25 Demo Day → Month 1 Sandbox in 1 Circle → Month 2 50k WhatsApp Pilot → Month 3 Statewide Rollout.

4. TACTICAL GUIDELINES FOR IMMERSION DAY (OCTOBER 16, 2026)

1. Use Real Telangana Artifacts: Bring a physical TGSPDCL yellow paper bill to the in-person review. Upload it live to show instant extraction of the 9-digit Unique Service Number (USC No).

2. Play the Telugu Voice Note: Let the judges hear the AI speak fluent Telangana Telugu: "*మీరు ఈ నెల 215 యూనిట్లు వాడారు. 200 యూనిట్లు గృహజ్యోతి పరిమితి దాటడం వల్ల...*". This immediately demonstrates state-wide vernacular inclusion.

3. Showcase the Officer Command Center: Showing the backend officer portal proves this is not a toy chatbot, but a complete enterprise utility platform.
